Equipment, Materials and Supplies

All purchases of equipment, materials and supplies will be made in accordance with applicable laws and regulations, including Chapter 143 Article 8 of the North Carolina General Statutes, board policy and any school system purchasing procedures. All employees involved in purchasing are expected to be familiar with these requirements.

When competitive bidding is not required, purchases should be made under conditions which foster competition among potential vendors. Purchase decisions should be made after considering price, quality, suitability for specified need and timeliness of delivery and performance. The board will not enter into a contract with any supplier or contractor when performance on any previous contract has been found to be unsatisfactory by the superintendent or the board.

Records of all informal bids will be kept and will be available for public inspection until the contract has been awarded. Such records should include the date the bid is received, from whom it is received, and for what item.
