Coaching and Athletic Director Assignments
Reference: Counselors and Assistant Principals

Effective July 1, 2003

Individuals currently employed with the Catawba County School system in the roles of counselor or assistant principal must receive approval from their principal and the superintendent prior to accepting a position as coach or athletic director.

It is imperative that counselors and assistant principals be accessible both before and after school hours to address school, student and/or parental concerns and issues. Therefore, care must be taken to retain the flexibility necessary to address primary job functions first.
