

ADOPTED SEPTEMBER 27, 2005  
REVISED JUNE 28, 2010

Descriptor Term:  
Equipment-Materials Donation

Descriptor Code:  
3.3230/8.2210

Legal References: G.S. 115C-518

Cross References: 3.6110 Instructional Materials; 8.2200 Gifts and Bequests

The board welcomes donations from the public, industry, and the community at large of donated equipment and materials.

The board recognizes that donated equipment has costs associated with its inspection, setup, maintenance, operation, and disposal. The investment that the system makes in donated equipment must be based upon sound educational decisions that enhance, rather than hinder the instructional program.

In keeping with the system's vision for technology infrastructure and connectivity, equipment donation procedures and equipment quality standards shall be established. The Chief Technology Officer or his/her designee shall review the standards annually.

Materials donated shall meet the criteria as outline in Policy 3.6110 Instructional Materials.

Any donated equipment and materials become the property of the board and the system assumes no debts or liens attached to a contribution.
