

## Mrs. Shaver and Mrs. Scott's

### Boots and Mittens Day

WE learned a great deal about winter. To celebrate we had "Mittens and Boots" day. The children wore their boots (any kind) and their mittens (some of us brought gloves and that was ok too). We did our math using them. We made patterns with the boots and mittens, we graphed them to see which had "more", "less" or "equal". We sorted them and the children came up with some great ideas--by color: but one boy put his in a category all by its self, we couldn't guess! It was camouflaged -great thinking. The children sorted them by pull-on/tie; fur/no fur; heel/ no heel; height, color. We went "ice skating" using waxed paper--what fun. Last, we had a "snowball fight" using our sight words. What a GREAT way to learn!!!
