See What We're Movin' and Groovin' to This Week!

Reading: Henry, Mudge, and Schema!

Since we are working on mental images, or visualizations, I'll be talking a lot about why these are different for all of us. We will also be reading Henry and Mudge and the Starry Night from the textbook.

Math: Continue unit 1

We climbed many math mountains last week and will continue writing equations and mountains from story problems. We've also worked on mystery addition (or as we adults call it: Algebra!)

Science: Matter and Changes

We didn't get to molecules last week, so we will find out why solids are solid, liquids flow, and gases float this week!

Writing: Sentences

We are still trucking along with sentence writing. We will continue to learn how to answer short answer questions by "flipping the question" and making sure all sentences have a subject.

In the "MOOD" for these events?

9/20 - McDonald's Night 5-8pm! See you there!

I'll be working the first shift at 5-630!

9/29 - Fundraiser money due

10/7 - Fall Festival! 6-8pm

10/26 - Children's' Museum trip-return at 330

Dude! This strategy is PAR-OUT!

VISUALIZING

Good readers make mental pictures while they read. We've all read a book then watched the movie only to be disappointed! That's because the "mind movie" is way better than the director's vision! After reading aloud, ask your child what they saw in their head.

from the teacher:

GROOVY

All students who receive reduced lunch prices now get free breakfast! Don't know if you qualify-call the cafeteria or the office!

Thank you to all families who've paid for t-shirts (\$10), magazines(\$4), and field trips(\$33.50)! I know this time of year is crazy! If you've not yet, you still have til Sept. 30 for all!

GROOVY Words to Live By

If we teach today's students as we taught yesterday's, we'd rob them of tomorrow. -John Dewey
